* Please see the Robinhood App for latest pricing. ** Beginning on or after May 6, 2024, the same margin rate(s) available to Gold customers will become available to non-Gold customers.		Margin Fees	Accounts with margin enabled may incur interest if your transactions are funded from margin.

Robinhood reserves the right to vary its rates and fees among customers in connection with special offers, promotions, or arrangements based on criteria such as account values, account balances or customer loyalty.

Processing and service fees assessed by third parties may be passed through to the customer's account. Some products and services may require additional fees or transaction minimums not specifically listed here. Prior to placing a trade or requesting any services, it is the customer's responsibility to ask Robinhood Financial if any additional fees will apply.

ⁱ Additional wire transfer reversal fees charged by an originating intermediary or recipient bank may apply.

ⁱⁱ Most customer accounts are transferred between broker-dealers through automated process. The National Securities Clearing Corporation (NSCC) operates the Automated Customer Account Transfer Service (ACATS) to facilitate the transfer of a customer account from one broker-dealer to another.

ⁱⁱⁱ These regulatory trading fees can be waived under certain criteria. Visit <http://robinhood.com/trading-fees> to learn more. The published fees are effective May 22, 2024. Prior to May 22, 2024, the regulatory fees will be \$8.00 per \$1,000,000 of principal (sells only).

^{iv} Fee effective January 1, 2024. The limit on this fee is based on execution of your order, which can occur in parts. This fee is rounded up to the nearest penny and no greater than \$8.30. Sale transactions prior to January 1, 2024 will have the following fees: \$0.000145 per share (equity sells) and \$0.00244 per contract (options sells), rounded up to the nearest penny and no greater than \$7.27.

^v The Options Regulatory Fee ("ORF") is a transaction fee that U.S. options exchanges assess their members in connection with options transactions. The ORF is collected by The Options Clearing Corp (OCC) on behalf of the exchanges. The ORF varies by options exchange, where an options trade executes, and whether the broker responsible for the trade is a member of a particular exchange. As a result, Robinhood calculates an average blended rate based on the amount it is required to remit to the exchanges. The fee charged by Robinhood may differ from or exceed the actual fee paid by Robinhood in connection with any transaction. These differences may be caused by various factors, including, among other things, the rounding methodology used by Robinhood, the use of allocation accounts and transactions or settlement movements for which a fee may not be assessed, timing differences in fee changes, third-party rate caps and floors, calculation errors and various other anomalous reasons.

^{vi} The OCC Clearing Fee is charged by The Options Clearing Corp (OCC) who provides central counterparty clearing and settlement services to 16 exchanges. The purpose of the fee is to recover a portion of the costs related to the OCC's supervision and regulation of the options markets.

^{vii} Instant customers may use margin in connection with certain transactions such as trading on unsettled funds or certain options trading. Robinhood does not charge fees in connection with such incidental use of margin in an Instant account.

^{viii} Neither Robinhood Financial LLC nor any of its affiliates are banks. The debit card is issued by Sutton Bank, member FDIC, pursuant to license by Mastercard® International Incorporated.

^{ix} Margin rate shown is as of 07/26/2023. The margin interest rate is calculated by adding 6.5% to the upper bound of the Target Federal Funds Rate, which is set by the Federal Reserve, and is subject to change without notice. The formula used to calculate the margin interest rate is subject to change at Robinhood Financial's discretion.

* Margin rate shown is as of 07/26/2023. The margin interest rate is calculated by adding 2.5% to the upper bound of the Target Federal Funds Rate, which is set by the Federal Reserve, and is subject to change without notice. The formula used to calculate the margin interest rate is subject to change at Robinhood Financial's discretion. Robinhood reserves the right to vary this rate among customers in connection with special offers or promotions based on criteria that may include account value, account balances, and customer loyalty.
